Recent Honors Show Accudata Technologies on ‘Fast’ Track

Accudata makes third-consecutive appearance on Deloitte’s Technology Fast 500 list

DALLAS – Oct. 23, 2007 – It’s been an exciting October for Accudata Technologies. After being named to the Deloitte & Touche USA LLP Texas Technology Fast 50 list earlier this month for being one of Texas’ fastest-growing technology companies, the lead-validation service provider followed the honor with more recognition – this time, on a national level. For the third consecutive year, Accudata was named to the Deloitte & Touche USA LLP Technology Fast 500 list. Accudata placed 370th among the 500 fastest-growing technology, media and telecommunications companies in the nation. The Technology Fast 500 recognized Accudata for its 385 percent growth, based on fiscal year revenues over five years (2002-2006).

“There are some very successful enterprises on the Fast 500 list each year, and for Accudata to continually have its name among the leaders of the technology industry is truly humbling,” said M. Gregory Smith, Accudata CEO. “It’s amazing to look back over the past five years and see what progress we’ve made. Only through the dedication and determination of each of our employees, along with truly phenomenal customers, has this success been possible.”

This year, Accudata was recognized in late September by the Metroplex Technology Business Council as one of the 50 fastest-growing technology companies in the Dallas-Fort Worth area. In addition, Accudata was ranked 33rd on this year’s Texas Technology

Fast 50, marking the fourth-consecutive appearance for Accudata on Deloitte's regional list.

About Accudata Technologies

Multi-award winning Accudata Technologies provides flexible access to data validation through innovative approaches to data transmission. The company serves as an access hub for validating information associated with traditional, mobile and IP-based telephone numbers. Its validation services include translating information between diverse protocols such as SS7, PSTN and IP in order to access local number portability and line information databases (LIDBs), name and address information (BNA) and bankcard transaction verifications. Additional information regarding Accudata can be found on the company's Web site: www.accudatatech.com.

About Deloitte

Deloitte refers to one or more of Deloitte Touche Tohmatsu, a Swiss Verein, its member firms, and their respective subsidiaries and affiliates. Deloitte Touche Tohmatsu is an organization of member firms around the world devoted to excellence in providing professional services and advice, focused on client service through a global strategy executed locally in nearly 140 countries. With access to the deep intellectual capital of approximately 150,000 people worldwide, Deloitte delivers services in four professional areas—audit, tax, consulting, and financial advisory services—and serves more than 80 percent of the world's largest companies, as well as large national enterprises, public institutions, locally important clients, and successful, fast-growing global companies. Services are not provided by the Deloitte Touche Tohmatsu Verein, and, for regulatory and other reasons, certain member firms do not provide services in all four professional areas.

As a Swiss Verein (association), neither Deloitte Touche Tohmatsu nor any of its member firms has any liability for each other's acts or omissions. Each of the member firms is a separate and independent legal entity operating under the names "Deloitte," "Deloitte & Touche," "Deloitte Touche Tohmatsu," or other related names.
