

## Quick Facts

**Company:** Award-winning Accudata Technologies provides flexible access to data validation through innovative approaches to data transmission. The company serves as an access hub for validating information associated with traditional, mobile and IP-based telephone numbers. Its validation services include translating information between diverse protocols such as SS7, PSTN and IP via a patented process in order to access local number portability and line information databases (LIDBs), Calling Name (CNAM) databases, billing name and address information, Internet lead validation and the aforementioned bankcard transaction verifications.

**Management Team:** M. Gregory Smith – President and Chief Executive Officer  
Monica Martino – Chief Technology Officer

Accudata's management team built expertise through years of experience with such leading companies as IBM, Siemens, Rockwell International, InterVoice-Brite (now Intervoice, Inc.) and Easyfax.

**Patents Held:** Accudata has one issued and 12 patents pending.

**Customers:** Local exchange carriers, payphone companies, inmate telephone system providers, long distance providers, telemarketing companies, lead providers and researchers and many other niche markets.

**Headquarters:** 800 N. Watters  
Ste. 130  
Allen, Texas 75013

**Phone:** (972) 390-2610

**Fax:** (972) 390-2712
