

Quick Facts

Company:

Accudata Technologies provides flexible access to data validation through innovative approaches to data transmission. The company serves as an access hub for validating information associated with telephone numbers. Its validation services translate information between diverse protocols such as SS7, PSTN and IP in order to access local number portability and line information databases (LIDBs), billing name and address information and bankcard transaction verifications.

Management Team:

M. Gregory Smith – President and Chief Executive Officer

Monica Martino – Chief Technology Officer

Accudata's management team garners expertise from such leading companies as IBM, Siemens, Rockwell International, InterVoice, and Easyfax.

Patents Held:

Accudata has 13 patents pending.

Customers:

CLECs, ILECs, independent payphone providers, inmate phone providers, billing companies, long distance companies, marketing companies, LD providers, OSPs, ISPs, audio text providers, and many other niche markets.

Investors:

T-NETIX is the largest stakeholder in Accudata.
